CREEKS COMPOSTER - RETURNING WASTE TO NATURE

As a globally recognized leader in food waste management, Suzhou Creeks Environment Equipment Co., Ltd. stands at the forefront of the sustainable revolution, championing the cause of green, renewable solutions for daily living. Our journey is fueled by the aspiration to pave a path towards a more sustainable future—where waste is not seen as an end, but a new beginning. Through innovative, environmentally friendly technologies, we aim to transform waste into valuable resources, thus rendering a smooth transition on a journey from garbage to green. Join us in our quest for a cleaner, greener planet.

Creeks is one of the world's leading food waste solution providers. Our success is driven by our hopes of moving towards green renewable sustainable solutions for our everyday day. And that begins with an environmentally sound solution to transform waste into something useful.

Since our founding, Creeks has been at the forefront of the manufacturing industry, providing top-quality products and innovative waste composting management solutions to our clients worldwide.

COMMERCIAL COMPOSTER

TECHNICAL FEATURES OF 10-100KGS

| MODEL | Processing Capacity | Composting Bin | Dimension (L*W*H) | Weight | Power | Decomposition Method | Waste Volume Reduction | Processing Time | Deodorization | Material | Control System |
|--------|---------------------|----------------|-------------------|--------|--------------------|---|------------------------|-----------------|-----------------------|--------------------------------------|--|
| CR-10 | 10kgs/day | 50L | 630*450*810mm | 97kgs | 220V/50Hz 1.5KW | Microbial Decomposition (Need to add bacteria) | ≥85% | 12-24Hours | UV + Activated Carbon | Q235 + Spray Paint + Stainless Steel | Fully Automatic Intelligent Control, Automatic Fault Alarm |
| CR-30 | 30kgs/day | 100L | 1050*700*930mm | 265kgs | 220V/50Hz 2KW | | | | | | |
| CR-50 | 50kgs/day | 180L | 1200*800*1050mm | 365kgs | 220V/50Hz 2.5KW | | | | | | |
| CR-100 | 100kgs/day | 400L | 1650*1000*1050mm | 650kgs | 220V/50Hz 4.5KW | | | | | | |

2022 / BRONZE

DESIGN AWARD WINNER

A'DESIGN AWARD & COMPETITION

A' Design Award & Competition is the annual international juried design accolade that manages the World Design Rankings, open to good design work from all countries, in all disciplines, by all entities. Entries to A' Design Award & Competition are blind peer-reviewed and voted on pre-established criteria by the grand jury panel of established academics, influential press members, prominent entrepreneurs and experienced designers, to recognize, highlight, promote and advertise the very best designs worldwide. The ultimate aim of A' Design Award & Competition is to create incentives for designers, brands and businesses worldwide to come up with superior products, projects, services, materials, technologies and experiences that benefit and advance society. A' Design Award & Competition laureate designs are granted this certificate to once again celebrate their design excellence and to praise their high design quality.

A'DESIGN AWARD & COMPETITION

Certificate of Excellence

this is to certify that
Maozhou Yang
has won the Bronze A' Design Award
in Industrial Equipment and Heavy-duty Appliances Design Category
in 2022 - 2023 period with design #146125.

15 April 2023, Milan / Italy.

About The Bronze A' Design Award
The Bronze A' Design Award is a prestigious award given to top 30,000 percentile designs that have demonstrated an exemplary high level of excellence in design. Entries to the A' Design Award are judged by a grand jury panel that brings together World's leading professionals, prominent academics and influential press members. Ranking are based on blind peer-review process where entries are voted anonymously on pre-established evaluation criteria, with strict presentation guidelines and score normalization to remove biases. The ultimate aim of A' Design Award is to create a global awareness and appreciation for good design by featuring and promoting good design worldwide.

in Industrial Equipment and Heavy-duty Appliances Design Category, 2022 - 2023.

Creeks
by Youking Design

Food Waste Treatment: Designers started with the concept of sustainable development and designed this equipment together with customers. They hope to take the recycling of kitchen waste as an opportunity to let the environmental protection concept penetrate into every restaurant and family, and provide higher quality kitchen waste treatment services for remote islands, plateaus, and other places in need, which can not only reduce the environmental problems caused by kitchen waste but also reduce the pollution caused by back and forth transportation, contribute to carbon neutrality and sustainable development.
